PROFESSIONAL EXPERIENCE

Paubra - *Project Developer*

- Collaborated with senior developers in building a full-stack mobile app.
- Applied agile methodologies with Jira for task breakdown, sprint planning, and workflow management.
- Utilized GitHub for version control: handled pull requests, resolved merge conflicts, and ensured a clean codebase.
- Contributed to both front-end and back-end development, participating in daily stand ups and code reviews.
- Strengthened skills in software development best practices, teamwork, and professional communication.

DEVOPT Company - *Web Designer and Web Developer (WordPress)*

- Revamped websites to improve UI/UX and functionality.
- Customized WordPress themes and plugins based on client needs.
- Collaborated with the team to design responsive and visually appealing layouts.

FREELANCING – *Web and Mobile app developer (2022-Present)*

- Designed and developed websites and mobile apps for small businesses to enhance digital presence.
- Delivered real-world solutions such as booking systems, e-commerce, and portfolio sites.
- Gathered client requirements, created mockups, and delivered responsive, user-friendly products.
